

REQUEST FOR INVESTIGATIVE JOURNALISM IN CAMBODIA AND THAILAND

In connection with the threat to the lives of citizens of Poland and Cambodia, I ask you to conduct a journalistic investigation related to the organization of fake weddings / wedding receptions in order to extort cash, gold chains, land, engines, and car. Please read the documentation in the form of bank transfers, photos and letters.

My request is motivated by the fact that I sent a similar letter to Indonesian TV during my short stay in Indonesia, but since then I have not received any response. Since sending the letter, my situation has worsened. I am being followed by suspicious people who are using poison against me in Thailand. Following me is a strange man-about 60 years old, balding, blond, and fat. I saw it at the Copacabana condominium during my holidays in Jomtien beach, Pattaya and at the chang erawan BTS skytrain station. It seems to me that this is a seller from a fish stand at the PSS Bojary store in Białystok, Poland.

A very similar man was a gravedigger at the funeral of my father, dr. Michał Lisowski, I also saw him after the sale of a house in Białystok on Victoria Street 15, in Białystok in front of the Biedronka store on Nowy świat Street in the center of Białystok. This man is very similar (I think it's the same person) to the employee of the Wielkopolska Highway, whom I saw at night on the S5 route. While working as an international driver for DEMOTRANS, I was driving from AMAZON Poznań to AMAZON Wrocław when my tire exploded in the middle of the night as I was leaving the parking lot. After a few minutes, a van pulled up on the Wielkopolska highway. Several people got out of the car and began to take pictures of me. It appears that the same person was at the Chang erawan BTS train station in Bangkok.

###

FAKE ENGAGEMENT IN SIEM REAP CITY CAMBODIA

After an engagement in Siem Reap City, Cambodia, I bought a house and land on a loan basis for the Nisa Iem. After moving into new home, Nisa said she came from a poor family who regularly visited the pagoda. She said that without marriage, shared housing is against tradition and culture. If he moves in with me, the local people will do something very bad for us. A few days after I moving in, someone broke into the property and stuffed elephant droppings into the middle of a water pump. For several days, the water in the house was poisoned. Then the local people began to throw stinking things in plastic bags into the yard.

The owner of the construction company, before the sale, claimed that on the street lived ordinary citizens. He said he came from a good family with connections in the police and military, and if anything bad happened to the property, he would be able to help. However, after someone threw

elephant feces into a water pump, the owner of the construction company said that without video recording, he would not be able to help. He didn't even want help reporting it to the police.

After few days on this event Nisa come to new house and she said that she doesn't want to be with me and she won't give back motorcycle that I paid and other stuff that I paid :-)

###

FAKE ENGAGEMENT IN UDONI TAHNI THAILAND

Thansuda came to my condo from Pattaya and told me that her family forced her to find a husband and get married. After a few days, we got engaged with a golden ring. She told me that to get married, I need to pay her family money for Merit, which is money to say thank you to her parents, grandparents, etc. I told her that I could pay half before the wedding and the rest after the wedding. She told me that she needs to pay her father 10,000 THB every month, as well as other family members like her mother and grandmother, because they are in bad financial circumstances (after 2 months, it looks like it was a lie).

She told me that she can not come back to her hometown because she doesn't have a place to stay, and her father got a new wife and her mother got a new husband (who is younger than me :)). Not only that, but she told me that her life in Pattaya is horrible, and she wants to get out of Pattaya. She was begging me to marry, pay money to her family, and start a new life with me in Bangkok.

--- event schedule about fake wedding in Thailand ---

I and Thansuda went to the local Pagoda in Udon Thani province to meet her father and pray. Her father looked like a descendant man in the beginning, and she was looking good too. She was preying on God for a better future during marriage.

One week in Udon Thani - Thandusa came with me and her Aunt to show land to purchase. Her Aunt told me that the market value of the land that she wants to sell is about 1 000 000 but she can sell for Thansuda for 400 000 THB as a wedding gift. She needs only 200 000 THB in 1 week because of the government plan - after 1 week she needs to pay extra tax.

We (me and Thansuda) slept in Udon Thani province next to the lake resort; the resort's name is 'David Resort' which was recommended by her father. Thansuda Aunt told me a story about the owner of the resort. The Owner is a Thai lady, her husband was a foreigner, and when he finished

building the resort, he died in strange circumstances. The next resort was cheaper and much better quality, so after a few days, I had moved out of David Resort.

During her one-week stay in Udon Thani province, she spends all her time with her family. She told me that during her 3-year stay in Pattaya her mother never visited her, and her father visited Thansuda only once for 3 years because he didn't have money for travel. Her mother and father do not look like her biological parents, not only to me, but also to other people.

28-6-2024 - After purchasing a car at Mitsubishi Motors, her father told me that she should come to Bangkok to visit the dentist, but I explained to him that taking Thansuda personal things from her old condo in Pattaya was more important. Thansuda father decided to cancel his visit to the dentist, and he drove a new car to Pattaya. When we reached Thansuda condo, she told me that her friend, who's got the key to her condo, had some problems with her boyfriend, and she got out of Pattaya. The second key to her condo is in the lobby, but the drunk receptionist could not find it.

After we came back by car to the Condominium in Samut Prakan her father told me that he wanted to take Thansuda to a good restaurant for dinner. I told him that I didn't want to go, but she could. She promised me that after dinner, she would come back. After a few hours, she texted me that there were no people in the restaurant, and they're going to another part of Bangkok to drink alcohol. She came back extremely drunk at 2 o'clock at night. The dinner with her father takes her about 8 hours. It was very suspicious for me because her father, at a wedding party in Udon Thani province, told me that he did not have money for eating in restaurants.

29-6-2024 - Thansuda told me that I have to pay more 50 000 THB to her father as a wedding gift for her father because he doesn't have money.

4-07-2024 - I report to Police Udon Thani, Pattaya, Bangkok and Pattaya that she is missing because she was living with me with all her belongings. The police replied to me that I should report it in Pattaya because her last address was in Pattaya. But the police from Pattaya told me that because she stole from my condo, I have to Report to the Samut Prakan Police Station.

5-07-2024 - Thansuda replied that he does not return to my condo, does not want to say where he lives and where he spends the night and whether he is pregnant. She wrote that the keys to the apartment and the building will receive in 3 days Mail.

6-07-2024 - in the mailbox I received packages to Thansuy from China with clothes inside.

2-07-2024 - Thansuda went to the police and testified in my case (attachment) and did not want to say where she lives with whom and whether she is still in Bangkok. When asked by a police officer if

she was pregnant, she replied, " I'm not sure." She said that the keys to the apartment in the condominium Aspire erawan Prime were sent by mail and should arrive in 3 days, but she did not send proof of sending.

8-07-2024 - I testified at the police station in samut prakan that the bride left the apartment at night without informing me. She took with her a large gold chain worth 80,000 THB, a gold Cotton ring worth 10,000 THB, a small gold chain worth 40,000 THB, and a tablet worth 20,000 THB, as well as the keys to the apartment and a card to the condominium building. A police officer called Miss thansuda oonseed and asked if she was pregnant, and she said she wasn't sure.

My Thai fiancée has a different name than her father. The difference lies in the letter O, in a Thai ID card she has one letter O at the beginning of her surname, in an application for a Thai passport she has typed one letter O; while her father has two letters O in the surname in his bank account.

It seems to me that Miss Thansuda Oonseda is a professional extortionist of money, gold and other material things. This is understandable only when he ran away from my apartment without informing me that he was leaving the "House". That's why I'm going to ask you to see if she stole other foreigners' money and gold. You can easily do this by checking her profile on the THAI FRIENDLY dating site and online messenger LINE. The Thai police won't be able to help me because her father has friends in the police (the local sheriff was at the engagement party)

There is another interesting situation related to this girl. After first meeting Thansuda at Jomtien Beach, she agreed to meet the next day, however, the next day she sent me a picture of the infected neck and wrote that she had to sacrifice her gold chain to survive because there was no money.

In view of the above and the accompanying evidence in the form of letters and bank transfers, I will ask that a journalistic investigation be carried out in view of the possibility of the involvement of the local police.

1. In the case of fake marriages in Siem Reap, Cambodia, my request is motivated by the fact that the local citizens of the fortress killed a man in Cambodia for \$10,000. Most likely, they will try to poison me again and kill Nise in order to steal the value of the land and House. In Cambodia, you do not need to make a bank transfer to purchase real estate, you can pay in cash.

2. In the case of fake marriages in Udon Thani, my request is motivated by the fact that Thansuda organized two wedding / engagement parties. The first was for the family of the father, who invited the local sheriff of the police; the sheriff was so drunk that he spilled whiskey on the table because

he was not able to pour alcohol into the glass. The party cost me 20,000 THB due to the fact that there was a lot of alcohol consumption. The second wedding party for Thansuda's mother's family cost me 6,000 THB. The party had the same number of guests as the party dedicated to my father, but no one drank alcohol.

///

My request is motivated by the fact that I wrote to the Polish ambassador to Cambodia on this issue and did not receive an answer. I also wrote to the tourist police in Siem Reap City, the immigration police in Siem Reap City, and the minister of immigration in Phnom Peng, and to this day I have not received an answer. I paid for a law student from Phnom Peng to write a professional letter, scoring articles that were broken in connection with organizing a fake reception. The letter was delivered jointly to the tourist and immigration police, but the police did not even want to read it.

As for my situation in Siem Reap City in Cambodia, I want to add that local residents say that everyone who has a business house pays a living wage to the military mafia.

The economic situation in Cambodia after the coronavirus pandemic is critical, and a lot of people are dealing with thefts. Many foreigners who did not want to pay for the military mafia were poisoned and killed. One option for such an organized group is paid assassins from China, who reportedly regularly fly to Cambodia because the police and military help poison and rob foreigners.

Please do not treat my situation in Cambodia as personal. Poisoning foreigners in Siem Reap City is a phenomenon that infects tourists from all over the world. The situation is really very serious due to the fact that after the engagement in Cambodia, the people who helped organize the engagement after a lot of alcohol consumption talked about an organized group from Cambodia that organized the killing of several people on the territory of Japan. After a few hours of drinking alcohol, they warned me that I would be poisoned and would try to extort money.

In the Annex, I include documents concerning the organization of a fake engagement party in Siem Reap, Cambodia, and in Udon Thani, Thailand.
